(aided and abetted by Stuart Helmore)

Once upon a time, a long time ago, in a certain department in a certain prominent university in a certain part the north of England ...

Investigated IS essays.

Found work that was:

- Poor
  - About Ilii to Pass
  - Poorly researched.
- Expensive
  - £100 or more.

Got on the TV.

“Have you seen this?”

A student.

- With a credit card.

His mission:

- Purchase programs.
- Attend assessment.
- Observe results.

Once upon a time, a long time ago, in a certain department in a certain prominent university in a certain part the north of England ...

payment

UNIVERSITY OF LEEDS

How much would one of your students be prepared to pay in order to pass your programming course?

problem

UNIVERSITY OF LEEDS

Are any of your students routinely purchasing programming coursework from a third party and presenting it to you as their own?

problem

UNIVERSITY OF LEEDS

Are any of your students routinely purchasing programming coursework from a third party and presenting it to you as their own?

How do you know?

It is frighteningly easy, and very cheap, to acquire code for programming coursework that will score very good marks.

message

UNIVERSITY OF LEEDS

Be afraid.

Be very afraid.
